----	---	---	---	---------------------

20. A method according to claims 18 or 19, wherein each diary entry includes a cross referencing facility such that each diary entry is cross referenced to the portion of the particular document which causes that diary entry to be generated.
21. A method of implementing an information management system according to claim 14 wherein said information management system is accessible to one or more client users on a communications network.
22. A method according to claim 21 wherein said communications network includes the Internet, intranet, and local area network (LAN).
23. A method according to claims 21 or 22, wherein reminders generated by said information management system are forwarded via said communication network to individuals who take responsibility for carrying out the tasks to which the due dates relate.
24. A method according to claim 21, wherein said information management system can be updated, maintained or monitored by said client users over said communications network.
25. A method according to any one of claims 14 to 24, wherein said method provides for access to documents having a multiplicity of rights and/or obligations including due dates internal to said documents and distributed in different clauses spread throughout said documents.
26. A method according to any one of claims 14 to 24, wherein said method provides for access to documents having a multiplicity of rights and/or obligations including due dates external to said documents but which relate to the transaction of which said documents form a part.
27. An information management system able to assist with the management and monitoring of a multiplicity of documents containing rights and/or obligations including due dates, arising out of a plurality of primary documents, substantially as hereinbefore described with reference to the accompanying drawings.
28. A method for implementing an information management system substantially as hereinbefore described with reference to the accompanying drawings.
